All Up

What is All Up?

All Up means placing bets on more than 1 race. Any dividend entitlement from a winning race will be automatically carried forward and reinvested in the subsequent race specified in the bet selection.

Example: All Up 3 x 1 Win

Race 1   Race 2   Race 3

$

| Bet $10 | Win odds: 3 | X | Win odds: 5 | X | Win odds: 2 | = Dividend $300 |

Total odds = 30

Customers can select the same or different betting pools for All Up.

Common All Up Betting Pools: Win, Place, Quinella, Quinella Place

All Up Formula

Choose the All Up Formula and number of combinations for 2 - 6 races.

Example: 2 X 3

Number of Race X **Number of Combination**

Common All Up Formula

Win	2X1	2X3	3X7
Place	2X1	2X3	3X7
Quinella	2X1	2X3	3X7
Quinella Place	2X1	2X3	3X7
Trio	2X1	2X3	3X7
3 Pick 1 (Composite Win)	2X1	3X1	3X4
Others	All Up/Cross Pool All Up		

All Up Example (1): 2 X 3

2 X 3 means choosing 2 races with 3 combinations.

Combination	Race 3	Race 5	Unit Bet
1	Single Race		$10
2		Single Race	$10
3	+	All Up	$10

Unit Bet: $10
Total Bet: $30

Benefit: Since All Up 2 x 3 consists of two bets on a single race, customers can collect a dividend if they are eligible for the bet dividend in either of the two races.

Real Case Example

28/04/2024 Sha Tin Race 3 and Race 5
All Up 2 X 3 Win: Unit Bet $10, Total Bet $30

Combination	Race 3	Race 5	Win odds	Bet amount	Dividend#
1	LUCY IN THE SKY		4.35	$10	$43.5
2		INVINCIBLE SAGE	6.9	$10	$69
3	LUCY IN THE SKY ✚ INVINCIBLE SAGE		30.015 (4.35 x 6.9)	$10	$300
			Total Bet	$30	
			Total Dividend		$412.5
			Net Profit		$382.5

The dividend is rounded-up or rounded-down to the nearest 50 cents.

All Up Example (2): 3 X 4

3 X 4 means choosing 3 races with 4 combinations.

Combination	Race 3	Race 5	Race 6	Unit bet
1	🐎 **+**	🐎 **All Up**		$10
2		🐎 **+**	🐎 **All Up**	$10
3	🐎		🐎 **+** **All Up**	$10
4	🐎 **+**	🐎 **+**	🐎 **All Up**	$10

Unit bet: $10
Total bet: $40

All Up 3 x 4 does not consist of bets on single races, which is different to All Up 2 x 3. Customers can collect a dividend if they are eligible to the bet dividend in any two of the three races.

Benefit: Selecting more races in an All Up bet will mean a higher "multiplying effect" in the odds. The dividend will, therefore, be more attractive.

Real Case Example

28/04/2024 Sha Tin Race 3, Race 4 and Race 5
All Up 3 X 4 Cross Pool Betting on Win/Place: Unit Bet $10, Total Bet $40

Combination	Race 3		Race 4		Race 5	Odds	Bet amount	Dividend#

						Total Bet	$40	
						Total Dividend		$1,084
						Net Profit		$1,044
